Mechanisms: * model equipped with backrests and armrests that can be manually adjusted, so that the seat depth can be increased by 42 cm and the seat width can be increased by 28 cm per armrest side. Additionally, the armrest is equipped with a manual mechanism to adjust its angle. The total depth of the model with backrests positioned outward is 151 cm (192 cm on chaise long versions and 122 cm on version BS3). The overall dimension of the model with extended armrests increases by a maximum of 22 cm per armrest side. The model is also equipped with manually liftable headrests. The height of the model with lift-up headrests is 104 cm.

Standard feet: the model is lifted 19 cm off the floor. PM2302 feet, in metal with standard matt black finish; upon request it is possible to choose from the standard finishes enclosed in the sample book. The sample book also includes "special" finishes available with a price upcharge, subject to production approval. Some versions may be equipped with hidden feet with a supporting structural function.

Please note: the model is completely finished on each side; each single element is covered also on inner sides. The model cannot be produced with the following leather articles: MAMMUT, EMOTION and ORION.
Versions 200 and 300 have different aesthetic and dimensional characteristics compared to the other versions and are without a tilting backrest. .
The 'small' versions stand out for their reduced dimensions compared to the standard versions. Each module, including the armrest, has been resized to allow for more compact configurations. To ensure aesthetic harmony, it is recommended to combine 'small' versions exclusively with each other.
